## River Thames Map

Capital Pleasure Boats is based at Temple pier and would normally sail from there, however can use other piers subject to availability.

Temple pier is situated on Victoria Embankment in Central London, opposite Temple tube station and the Walkabout pub. The map below shows the location of a variety of piers and bridges, including Temple.

Although these piers can be used by our vessels they are subject to availability and some are also subject to favourable tides.

\*London Bridge City and Canary Wharf piers can be booked for any of our vessels however times are very restricted due to a busy schedule of commuter services.
